Art Unit: 1743

In response to the 3/23/06 amendments after final, the Office has reconsidered the claims as not conforming with 35 USC 112 second paragraph and will make a new grounds of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 44-45 and 61-62 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are vague and indefinite what structure facilitates the claimed "... a part of their surface can be displaced freely relative ...". Also, it is not clear what is intended by "displaced freely" (e.g. does this mean over each other or being removed from the strip ?). Finally, it is not clear what type of structure is intended by the claimed "overlay".
